1. In response to your memorandum of 18 August 1982, I have taken action to request for members of the Office of Planning the following accesses:

25X1

I have provided Tom with a briefing paper on the [REDACTED] program and also with a security oath which he will execute once he has read through the briefing material.

2. With regard to the [REDACTED] access, you and [REDACTED] both have this special compartmented access even though it does not appear on the CIB run. At the present time, the greater majority of people who have been cleared for this access are not listed in CIB. If we choose to pass this special access to any other component, it must be done through [REDACTED] Security Officer.

3. With regard to [REDACTED] he has already been granted the "Q" clearance, but as yet we have not received the briefing material from the Department of Energy. In actuality, the briefing consists of a booklet which is permanently maintained by each recipient of a "Q" clearance. This booklet provides information regarding the "Q" clearance, but there is no briefing oath affiliated with it. Hopefully, we will receive this booklet and provide it to Bob in the very near future.

4. The aforementioned is offered for your information. Should you have any additional questions, please contact me on [REDACTED]
